

## EDUCATIONAL QUALIFICATIONS

M.B.A.	2026	Indian Institute of Management, Visakhapatnam	Pursuing
B.Tech. - ECE	2018 - 2022	NIIT University, Neemrana	7.97 / 10
TSBIE - 12th	2018	Vijay Ratna Junior College, Hyderabad	90.1%
CBSE - 10th	2016	Kendriya Vidyalaya Number 2 AFA, Dundigal	9.8 / 10

## PROFESSIONAL EXPERIENCE

## Security Specialist

IBM

Sep 2022 - Jun 2024

- Awarded **Hybrid Cloud Transform (HCT) - Best Asset Development Award** (Q2 2023) in recognition of **developing product** and engineering assets for the organisation that helped by **improving the overall efficiency** and **increasing the profits** marginally
- Selected for the **Watson-X hackathon finals** and **delivered the final product** which is the flagship event of IBM to leverage generative AI to **strategize and optimize** solutions and create **efficient business models** with the help of AI and data analytics
- Tasked to **Mentor 5 new interns** at IBM while **supervising, motivating, delegating and training** them their full-time employment
- Contributed to PTSS, team of **70+ members consulting clients** across **globe** and working on **cross-facilitating** innovative methods
- Spearheaded **3 projects independently**, operating as **individual Point of Contact** for communicating with **international clients**; **Generated reports** for **3 more** different **internal client** teams within IBM based on clients' requirements and recommendations
- Worked on and developed an **innovative business product** solution oriented around automation script assisted by **decreasing the manual workforce** by **10%** and **reducing errors** by **30%** enhanced by **data analytics** tools and technologies to optimize
- Accomplished tasks such as application security, risk identification, and mitigation while **collaborating with teams** on **multiple tech stacks** (Java, SQL, Cloud, network, etc.) for **delivering innovative solutions** and **support global clients' needs** efficiently
- Worked and reported based on the **agile methodology and models** that the team followed; Improving **internal communication**, and **cross-team collaborations** from across locations on a **global level** and ensuring timely completion adhering deadlines
- Contributed to developing Infrastructure Security Support **DevOps product** build to **assist the Operations** of clients; **Developed product strategy** for the automation project based on understanding **client needs, market trends, and business requirements**

## INTERNSHIPS

## Cyber Security Intern

IBM

Jan 2022 - Jul 2022

- The product developed were **endorsed and appreciated** by Director of Talent Acquisition Integrated Supply Agreement
- Contributed to base **building a prototype** for Network Security Operations validation product using **DevOps tools**; **Communicated** on **product status** with reports generated to **stakeholders** involved (internal team, higher management and colleagues)
- Reviewed higher management feedback, analysis, and insights or interviews to **identify requirements** and reflected on the same
- Automation of firewall to track changes before and after an upgrade to **eliminate errors/misses** in upgrade qualification checks; Engineered **product solutions** to enhance Network Protection and **increase efficiency** of upgrades through **automation**

## CERTIFICATIONS

- CompTIA Security+** for identifying **threats, attacks and vulnerabilities** with techniques in **risk management and risk mitigation**; **Skills** - Data Security, Threat Analysis, Risk Management, Risk Mitigation, Risk Control, Data Recovery, Cyber Forensics, Networking
- Watsonx.ai Sales Advanced** badge for **knowledge and skill** with **watsonX** and the ability to **deliver client-facing Proof of Value**; **Skills** - Sales Strategy, Management, Artificial Intelligence, Trusted Advisor, Technology Sales, Cloud and Business Development
- IBM Enterprise Design Thinking** badge for applying and finding opportunities to use **design, strategies and innovative thinking**; **Skills** - Customer Experience, User Research, Design, Ideation, User-Centric, Business Process, Strategic Planning and Workflows
- Data Science Methodologies** badge for steps in **data science** and research on **analyzing data** and **building relevant models**; **Skills** - Data Analysis, Data Management, Big Data, Databases, Statistics, Analytics, Product Development, Python and Reporting
- Acquired **Agile Explorer** badge for understanding agile methodologies values, principles, and practices in product development; **Skills** - Agile, Operations, Development, Product Management, Agile Methodologies, Scrum, Sprint, Facilitation, Release Planning

## POSITIONS OF RESPONSIBILITY

- Junior Placement Representative** at IIM Visakhapatnam (selected amongst **23 out of 344**) responsible for **maintaining corporate relations, collaborating and connecting** with recruiters and industry leaders to generate leads to **expand corporate network**
- Coordinated all placement activities** for the PGP class of 2025 and 2026 (**600+** students) and ensured smooth **functioning and organising** of all placement-related activities while functioning as **liaison** between the students, recruiters and the CDS Office
- Assigned as **Student Club Coordinator** for the second year of B.Tech. to ensure smooth **functioning, organizing and scheduling** of events, functions and student activities during the academic year, while also being **responsible for managing resources**

## EXTRA-CURRICULAR ACTIVITIES

- Was **nominated out of 240** students to **lead and mentor** the juniors in undergraduation and **coordinated scheduled activities**
- Spearheaded a team of **5 student members** representing the school in the intra-regional **National Children's Science Congress** which was oriented on **developing innovative solutions** to tackle and solve climate, environmental & weather change problems
